

The power of words – William

William: My name is William and I am 17 years old, and the music and the speech I have chosen is in first Stephen Hawking's About Space and the music I have chosen is My World from Florian Bur. So, the main question that's why did I choose this music and why did I choose this speech. Firstly, for the speech, I chose Stephen Hawking's last speech in 2018 because it's a moving and true messages addressed to the current and future generations. Stephen Hawking was someone who had one of the best world's vision, he knew how to find the appropriate words to convince people. Therefore I find this speech important for all of us to improve our lives and become, what are you called, global students. This is why I have chosen Stephen Hawking's speech. And now, why I have chosen this music. Well, firstly, I have chosen this piece of music by Florian Bur because I am enjoying the works in music and which made us imagine a new world, a world where we feel good (?). It is beautiful music from Florian Bur and help us during this kind of world and relax. This is why I have chosen them.

Elaine: So how do you think the speech, Stephen Hawking's speech and your chosen piece of music could influence you in the future?

William: Well, I have a passion, my main passion is of course the history but I have a second one, this is the universe. Stephen Hawking's and my world are two songs about the universe and also about the earth and the future. And that has some influence on me because I think this is very important for our future and it gives me luck. When I listen to this music, I feel like in a dream in which I feel good, relaxed. I can also give up my imagination, er, I forget about everyday problems. So I can be in my own universe. I often listen to this speech and music when I need to get away from reality and find courage.

Elaine: Absolutely. It's, er, you can be yourself just in the music and the speech.

William: Yes.

Elaine: And the outside world and all the problems you might be facing disappear.

William: Yes. Exactly.

Elaine: I wish you the very best of luck and very good choices.
