

Cine Roche

'The Cinema', has been run as an association for many decades. It is not a business venture but simply provides an opportunity for everyone, to share in the pleasure of all aspects of film and cinema. The president, Phillippe Obrejan has a fantastic team of thirty volunteers. Phillippe tries to involve associations, councils and local businesses in any new project. The association runs video courses, open to everyone and works with schools, town halls and businesses in the production of videos. They could even organize a video of your wedding. The association shows about five or six films per week with at least one or two in English. The President considers it hugely important to continue to encourage the great level of interest expressed by British people. In 2010 it's hoped that all communes would wish to participate in the creation of a film using local people as the main actors. The President is just looking for a theme on which to base such a film. Have you any ideas? Well, just get in touch with the association.
