

Glomel Twinning

- Rob Well, I'm here in Glomel and I'm speaking about twinning with two young ladies, who are nearly twins, sisters Emily and Stephanie Brabant. Emily, you are the president of the twinning committee, How long have you been involved?
- Emilie This is the second year it's very interesting for me, Glomel is twinning since nineteen years with Kamp, a village in Ireland, since seventeen years with Tazones a village in Asturias in Spain.
- Rob And so Glomel has very strong links with these two places.
- Emilie Yes.
- Rob And tell me: What is planned for this summer?
- Emilie One week in July during three years each village and for a week then they get there from July five to twelve, twenty five Britains and Asturians, we stay in families. There are a lot of visits and we have got a lot of friends.
- Rob What do you enjoy about twinning?
- Emilie It's very interesting to see my friends, Asturians and Irish.
- Rob What is the role of the President?
- Emilie Preparing the travel and the meetings during the year.
- Rob Tell me. How do you get to advertise your committee and your twinning in the commune of Glomel?
- Emilie The twenty nine last March, we had a pancake meal for Saint Patrick's day followed by a musical entertainment. It was a success, we are very happy.
- Rob And I know that the committee and the association are very keen to benefit from learning English. So this evening there is an English class.
- Emilie Yes.

Rob Excellent.

Emilie Every Tuesday about ten persons take the English lessons to perfect the English and after we come both in Ireland.

Rob And now I hope I will be able to speak with some of the students who are going to go to Ireland. Thank you very much.
