

English teacher Geneviève at Bon Repos

Elaine So to continue our little tour of the abbey I'm talking to one of the English teachers who has been responsible for organising today's event. Could you introduce yourself?

Geneviève Yes my name's Genevieve Boudert, I'm an English teacher at Jean Moulin High School in Saint Brieuc and I'm here with one of my sections because we have a Euro Section at our school and try to make our students discover Euro, discover other languages too and other cultures, and to make it lively so the opportunity for coming here for us was great.

Elaine What do you think the best part has been about today's project?

Geneviève It's to see our students communicate in English. That's fantastic for us because they can stop their ears, because the language barrier is terrible sometimes and they feel they can't do it sometimes and here we can prove that it's not true. When they come here they can communicate and they're happy to do so, so no barrier anymore.
