

Visit to the Île de Groix - Astrid

Elaine So Astride, can you tell us what you thought of this outing today?

Astride Wonderful outing and nice weather. Everything was gathered, for me it was only for me. I appreciated really everything. Organisation was perfect. Weather was perfect. We had a nice crossing by boat and..... lunch was very good. Quick. All the people there were very kind and afterwards with the bus tour the driver was very kind, was funny.

Elaine. So would you, if you, let's say, if you had the opportunity would you like to live on an island on that particular – Ile de Groix.

Astride Ye..... Maybe it is very difficult when you have to, when you have children who must go to school, to High school, because I think, at the end it will be expensive crossing by boat..

Elaine I thought it was just so charming and unspoilt.

Astride Yes, yes it's a little bit still wild, still wild but we must say as on each island people in Summer there are between 14 and 17 thousand people in the island but in winter there are only one thousand, seven hundred left.

Elaine So do you think you might go back for another visit one day?

Astride Yeah, why not.

Elaine Thank you Astride.

Astride Welcome.
