

Justine: Hello, I'm Justine. I'm 12 years old. I choose Coco Chanel because I think she's very inspiring. She creates a lot of things, including the Chanel brand, which is today one of the biggest brand in the world. She inspired her whole generation, which is pretty amazing. I would love to be like her, in my future, because she did lots of things for woman, and for the world, and for fashion and I like her a lot and I like her clothes too..and I hope I could be like her, but... she's great!
I mean, I, I could never be like her, because she is so inspiring....
I loved doing this task because I learnt more about one inspiring woman who changed the world.
