

## **MY NAME IS MARWAR ALI**

I am an individual young leader who is deeply passionate about making a positive impact on my community. I am the Co-founder and head of the athletic female committee of **APS** (Afghan Parkour Society). I am a student at **AUAF** (American University of Afghanistan). I was a juggling trainer at **AECC** (Afghanistan Educational Children's Circus). I am an alumna of the US embassy from **LEAP** (Leadership English Advancement Program in India). I graduated from **CTI** (Computer Technology Institute). I completed entrepreneurship and English language teaching methodology at **BHFF** (Blossom Hill Fellow Foundation) for a year.

I have implemented various types of community service projects, such as **PPP** (Painting for Peace Project), hiking and **AWECamp** (Afghan Women Empowerment Camp). I participated in Life, Leadership, and Project Cycle Management skills training at **GIZ** (Deutsche Gesellschaft für Internationale Zusammenarbeit). I was awarded a full scholarship in the field of **BCS** (Bachelor of Computer Science) at DUA (Dunya University of Afghanistan). After the Afghanistan collapsed, I had to escape the country because of my social activities and threats. Since I became a refugee in France, my passion for advocating Afghan women's rights has become stronger. I would like to engage in advocating, story production, leadership, and visual storytelling sections. I would like to use this space and share my gratitude for creating this opportunity, so I could share the situation of Afghan women.
